maison insurance.

The Midden Insurance company is a singular Denmark institution. It is confined to the nobility, and the nobleman, as soon as a female child is born to him, enrolls her name on the company's books and pays in a certain sum and thereafter a fixed annual amount to the treasury. When the young girl has reached the age of twenty-one she is entitled to a fixed income and to an elegant suit of apparel, and this income and this residence, both almost princely, are hers until she either marries or dies. The society has existed for generations. It has always prospered. Thanks to it, poverty stricken old maids are unknown among the Denmark nobility, but every maiden lady is rich and happy.

Not Responsible.

"Hold on," said the learned chemist. "Didn't I give you a bottle of my wonderful tonic that would make you look twenty years younger?" "You did," replied the patient, "and I took it all. I was then thirty-nine, and now I am only nineteen." "Well, then, will you please settle this bill you owe me for the treatment?" "Oh, no! As I am only nineteen now, I am a minor, and minors are not held responsible for the bills they incur. Good day, sir."—Illustrated Bits.

A Cruel Inscription.

A tombstone unheeded during the demolition of the old churchyard of Radnorshire bore a curiously unloving "In Memoriam." Here it is: "I plant these shrubs upon your grave, dear wife, that something on this spot may boast of life. Shrubs may wither and all earth must rot; Shrubs may revive, but you, thank heaven, will not."

The Cheaper Way.

"Do you know, hubby, that when I go to Ostend I shall dream of you every night?" "If it's all the same to you, I would prefer to have you stay with me and dream of Ostend."—Fleegende Blätter.

Why He Looked.

Hofack—Why are you consulting the dictionary? I thought you knew how to spell. Tomdick—I do. I am not looking for information, but for corroboration.—London Tit-Bits.

DeWitt's Little Early Risers are small, safe, sure and gentle pills. Sold by C. R. Renfro.

DEMOCRATIC STATE PRESS BUREAU.

By A. D. Humphrey. Guthrie, Okla., April 28.—That the state school fund of Oklahoma has been distributed to banks in every locality of the state, for the purpose of relieving the financial straits of the banks, is the position taken by Governor Haskell.

Acting on this theory, the Governor is insisting that all banks, that carry state deposits, when they buy state, county, or school district warrants, must pay par value for same. Several instances have been called to the Governor's attention, recently, where banks have bought warrants at a discount. In each case if the bank carried a state deposit, it was immediately notified, that, unless the discount charged was refunded to the party for whom the warrant was purchased, the state deposit would be withdrawn. On April 8, 1908, M. McDermott, janitor of the court house, at Claremore, presented a registered warrant of Rogers county to the bank of Claremore, for the amount of \$750. In cashing the warrant, the bank retained a discount of 5 per cent. The friends of McDermott advised Governor Haskell of the transaction. Inquiry showed that the bank of Claremore had \$20,000 of state money on deposit. The Governor wrote to the cashier of the bank, advising him that unless a check, payable to McDermott for the amount of discount charged on the warrant, was immediately forwarded to him, the deposit would be withdrawn. This week, the Governor received a cashier's check for \$3.80, which was immediately forwarded to McDermott.

From Kingfisher complaints came from teachers of the public schools, that the banks there were charging 5 per cent on all school warrants. The Governor wrote to Helen Paybee, one of the young ladies, who had called his attention to the matter advising her to use his letter as a warrant to demand from the cashier of the bank, repayment of the discount under penalty of losing whatever state deposits the bank might have.

"The banks pay the state 4 per cent on the money deposited with them," said the Governor, in speaking of the matter. "The registered county school warrants draw 7 per cent interest. If the banks hold state money, which it can use in buying these warrants, it makes 4 per cent on the transaction by cashing them at par. Certainly there is no reason why any bank should be allowed to use state money to shelve state or county securities. We deposit the county school funds in the banks throughout the state for the purpose of relieving the financial straits of the banks, so that the people, who need to borrow money could get it at reasonable interest rates. The deposits were not made for the benefit of banks; they were made for the benefit of the people."

Guthrie, Okla., April 28.—Numerous complaints have reached the Governor's office of over charges made by notaries public in protest fees on checks and drafts where payment was refused. Despite the fact that the Governor recently sent a similar letter to all notaries public, advising them of the legal charge which might be made under the statutes, several instances have been called to his attention, where overcharges of three and four dollars were made on a single check. Several notaries public have been cited to appear before the Governor, and show cause why their commission should not be revoked for this overcharge. In almost every instance, the notaries making the overcharge are held up by any man or organization of men, no matter what their politics may be, that want to charge two prices for public printing. A printing plant, sufficient to do all the State work, except book-binding, would cost comparatively little.

Yearly, under territorial government, enough money was filched from the public treasury in one year to more than pay for such a plant. Unless some reliable firm comes forward and accept the State printing at the regular prices charged to private institutions, we will buy the plant, and do our own printing at actual cost."

Guthrie, Okla., April 28.—Local agents for the State Dispensary system will be appointed, and their supply of liquor furnished them by May 1, according to statements made by Secretary of State R. E. Lester today.

"In making selections for local agents," said Mr. Lester, "one qualification is going to be required above all others. The local agent must be of good moral character, and good reputation in the community in which he lives, and he must be in sympathy with the Prohibition Law and its enforcement to the letter. Should by any chance, a man secure the appointment in any locality who fails in these qualifications, proof of that fact furnished to the State Superintendent will bring about his immediate removal."

Guthrie, Okla., April 28.—The following bills have passed both branches of the Legislature and become laws by the approval of the Governor during the past week.

April 23, 1908.—House Concurrent Resolution 21. An Act Memorializing Congress to restore stream tributary to the Mississippi and Arkansas rivers, to navigation.

April 24, 1908.—Senate Concurrent Resolution 47. Providing for the appointment of a commission to investigate the Territory Land title system, and report on same at the next session of the Legislature.

April 24, 1908.—House Bill 93, providing for the creation of new counties. This bill by Thibodeau (of Nowata), bears the distinction of being the only measure, so far that has passed both Houses, and become a law without being amended.

April 24, 1908.—Senate Bill 79, known as the Anti-Black-Listing Bill. This requires all railroads to furnish

hands of the Secretary the original bid.

Among the items included in the bid, was one for Crane's bond paper, per 1000 sheets, \$9.04. That is the way it reads in the Capital's original bid, still in the hands of the Secretary of the Board. That is the way it read in both copies of that bid, when Board to Frank H. Greer.

When Greer returned the two copies along with his bond and contract for the approval of the Board, it was discovered that this item had been changed, by striking the words "per way it reads in the Capital's original thousand out and inserting the words 'per ream.' A ream is 500 sheets. By the change made in the copy of the bid, the cost to the State of bond paper would have been doubled.

When Greer was first advised by the Board that an alteration had been made in his bid, he disclaimed any knowledge of the fact.

Called before the Board, and confronted by Governor Haskell, with the indisputable evidence that the alteration in the contract, was in the handwriting in which his name was signed to the end of the contract, Greer turned pale as a ghost, and admitted in craven tones that he had made the change himself.

The Board immediately cancelled the contract, rejected Greer's bid, because of attempted fraud and advertised for new bids to be submitted April 29, 1908.

That's the whole story. Although Greer, in the State Capital attempted to evade the naked truth, by an attack on the Governor of the state, the fact remains the same: The State Capital tried to steal \$15,000 from the state of Oklahoma. It was caught red-handed in the act, and properly branded as the dishonest, unreliable and wholly irresponsible sheet that it deserved to be.

Guthrie, Oklahoma, April 28.—New bids will be opened April 29 by the State Printing Board for the printing of stationery and supplies for the State officers. Unless some firm offers to do this work for a price equal to or less than the rate charged the regular merchant or business man for the same pieces of work, the Board will reject all bids, and immediately ask the Legislature for an appropriation sufficient to establish a State Printery.

There is no reason why the State of Oklahoma should pay more for its large amount of a certain class of work than the ordinary business man pays for a much smaller amount of the same kind of work," said Governor Haskell, today. "The State is not doing to be held up by any man or organization of men, no matter what their politics may be, that want to charge two prices for public printing. A printing plant, sufficient to do all the State work, except book-binding, would cost comparatively little."

Yearly, under territorial government, enough money was filched from the public treasury in one year to more than pay for such a plant. Unless some reliable firm comes forward and accept the State printing at the regular prices charged to private institutions, we will buy the plant, and do our own printing at actual cost."

April 24, 1908.—Senate Bill 79, known as the Anti-Black-Listing Bill. This requires all railroads to furnish

to discharged employees, a written statement of the cause for their discharge.

April 24, 1908.—House Bill 15. Authorizing the transfer of certain seal, records, etc., to the Oklahoma Historical Society.

April 25, 1908.—House Concurrent Resolution 25. Relating to the Oklahoma Historical Society.

April 24, 1908.—Senate Concurrent Resolution 25, known as "The New Jerusalem Resolution," and providing for the appointment of a committee, made up of members of both Houses, to investigate the feasibility of securing an ideal location, near the center of the state, for the permanent State Capital.

Guthrie, Okla., April 28.—Acting under the instructions of the State Board of Agriculture at their meeting of March 16, Quarantine Inspector Bryan has prepared and will soon issue a bulletin and map showing the location of the new State quarantine line. The quarantine line commences at the east border of the State between Delaware and Adams counties and runs west on the south line of Delaware, Mayes and Rogers counties, crossing Tulsa county about the center from north to south, to the southeast corner of Osage county. From there it runs due south, through the west arm of Tulsa county to the northeast corner of Creek county. It follows south on the east line of Creek county to the southeast corner, then west on the south line of Creek county to the east line of Lincoln county. From this point it runs south on the east line of Lincoln and Pottawatomie counties to the Canadian river. The Canadian river is followed north and west to the east line of Caddo county. From there the line runs south on the east line of Caddo and Comanche counties to the intersection of the Red river, which forms the State boundary from there, it follows the Red river west and north to the Texas Panhandle.

Tired nerves, with that "no ambition" feeling that is commonly felt in spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter-time, the circulation of ten slows up, the kidneys are inactive, and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative in recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out, weakened nerves; it sharpens the failing appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor and ambition. Try it and be convinced. Sold by all dealers.

Mail order banks are popular and some of them have a habit of doing things wrong. Owensboro, Kentucky, had to close its doors on account of leading all the receipts. Fortunately the mortgages and notes of the bank are worth the money and no one will lose a dollar. It had been in this state there would have been no failure for the state would have to make the depositor safe and give him his money.

The World's Best Climate. Is not entirely free from disease, on the high elevations, however, malaria is while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate affections, lassitude, malaria, jaundice, biliousness, fever and acute and general debility, the most effective remedy is Electric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness, and impurity. Sold under guarantee at C. R. Renfro's drug store. Price 50c.

Ladies Tan Blu Oxfords \$1.75 to \$3.00. Robinson's

Science promises to make the fly ink machine an article of commerce this year. They have already incorporated their companies. The inventors put in their promises, the promoters attach their approval, and some "angel" gets shares for his experiment stock accounts. That is commerce, in the sense of the term, but it has questionable value for each separate day.

It Reached the Spot. Mr. E. Humphrey, who owns a large general store at Omega, O., and is president of the Adams County Telephone Co., as well as of the Home Telephone Co. of Pike County, D. says of Dr. King's New Discovery: "It gave my life once. At least I think it did. It seemed to reach the spot—the very seat of my cough—when everything else failed. Dr. King's New Discovery not only reached the cough spot; it healed the sore spots and the weak spots in throat, lungs, and chest. Sold under guarantee at C. R. Renfro's drug store. See and know. Trial bottle free."
